The Chief Judge and Contest Director should always try to ensure that a full panel of qualified judges is available for every contest. However, in the event of a judge not being present for the contest due to illness, travel difficulties or any other extenuating circumstance, the following formula will be applied. 1. If a visual judge is absent from the panel, the Visual Performance Individual caption will not be judged, and the Visual Performance Ensemble score will be used for the total visual performance score. 2. If a music judge is absent, the Music Performance Individual caption will not be judged, and the Music Performance Ensemble score will be used for the total music performance score. 3. If a judge becomes ill part way through a contest and is unable to continue judging, the above conditions will also apply. The affected judge's scores would be dropped and all bands will receive the adjusted scores as described above.

Section 2 - Number of Judges in an Indoor (Rainout) Show: Standstill shows will be judged in Exhibition by the three music judges using the indoor music sheets. If the show site permits, the host director, in communication with the Chief Judge, may decide to either have the visual judges make tapes of the stand still performance (there will be no indoor visual sheets and no visual rating will be determined), or give a brief clinic to each individual band.

ARTICLE V **Contests**

Section 1 - Official NMBC Contest: Only member bands in good standing that meet the Conference Show Host criteria (Policies and Procedures Section 4) will be permitted to sponsor an official NMBC contest. Application must be made to the Executive Board by the advertised due date.

2. Lightning - Should lightning occur prior to the start of a contest all students, staff, judges and spectators shall seek shelter. The Chief Judge, in consultation with the host band director, will determine the status of the show 20-30 minutes prior to the start of the competition. If lightning continues or returns the Chief Judge will declare an indoor show. If at the end of a class the lightning stops the show may return to the stadium and resume a normal show.

A. Once the Contest has Begun: In the event that lightning is observed, or within 10 miles at a NMBC sanctioned event, **all activities should be suspended at once**, and all students, staff, judges and spectators shall seek shelter immediately. After a **30 minute** period without lightning, the Chief Judge in consultation with the host band director, shall determine whether to resume the competition outdoors or move indoors. If a contest is moved indoors

and at the end of a class, if the lightning stops and 30 minutes has passed, the show may return to the stadium and resume as normal.

B. Role of the Chief Judge: The Chief Judge is responsible for the operation of a safe environment. The Chief Judge is to be in contact with the host band director. After consultation with the host director, the Chief Judge will make the final decision. In the event of any of the above scenarios, all band directors and/or band representatives will meet with the host band director and Chief Judge at a designated place and time for status of the show.

Section 7 - Band Director and Judge Contact: At any NMBC sanctioned event there is to be no contact whatsoever between band directors or band representatives and the judging panel. Moreover, there shall be no contact outside a post contest meeting or critique between band directors, band representatives and judges. If outside contact is made between any of the above parties, the matter will be received by the NMBC Executive Board and Council, which may result in the suspension or expulsion of that band.

Section 8 - Press Box and Judging Area: Band directors and/or band representatives will be prohibited from entering the press box or other judging areas during the actual competition.

Section 9 - Extreme Weather Disclaimer: Any NMBC member band signing up for a contest understands that events beyond the control of the NMBC (ie, life-threatening weather) that might cause a show to be canceled shall not be at the responsibility of the NMBC. In the event of some special circumstance, the NMBC will take whatever measures possible to adjust to the situation for the good of the students. NMBC will in no way be responsible for travel expenses or other related costs of individual bands or spectators.

ARTICLE VI **Parliamentary Authority**

ARTICLE VII **Ratification of By-Laws**

By-laws shall be approved article by article with a two-thirds majority vote of all members present at an NMBC meeting.

ARTICLE VIII **Ratification of Policies & Procedures**

Changes to Policies, Procedures and Rules must be submitted to the Chair 30 days prior to a General Membership Meeting. NEVADA MARCHING BAND CIRCUIT OFFICIAL RULES

1. **Competition Area (Boundary):** The competition area shall be the same size and shape as a regular football field (300 ft. X 160 ft.), including 15ft from the front sideline towards the front field. Yard lines every five (5) yards and hash marks placed according to high school football specifications are included. Yard line markers must be placed at the intersection of yard line and sideline and stand no less than 10” tall. Yard line markers must be placed on both sides of the field from goal line to goal line on (at least) every ten (10) yards. The markers may be moved if they interfere with a band's performance.

2. **Pre-performance Procedures:** Bands may not practice or warm up within earshot or visual vicinity of the stadium, or the designated warm-up areas, except at the designated times in the designated areas. Bands may stretch or have a visual block in their assigned parking lot as long as they are not interrupting the flow of traffic, and are using claves or sticks to keep time. Electronic devices, like long rangers, or speakers are not allowed in the parking lots.

Time-keeping devices such as metronomes or jam blocks, megaphones or similar voice amplification devices, and audio systems may be tested and used in warm-up areas, must remain at a reasonable volume depending on the acoustics of the warm-up area and proximity to other bands/warm-up areas, judging areas, and the host’s discretion. Hosts may restrict the use of specific devices (or order discontinuation of use on-site) if they believe such devices interfere with other bands in the warm-up areas or with performances in the stadium.

3. Timing Procedure Summary:

Bands are scheduled on 15-minute intervals, with appropriate breaks as scheduled by NMBC.

A Band is allowed four (4) minutes to set-up and warm-up anywhere in the Performance Area. (The placement of any props or equipment must take place during this time). This time will begin at the cue of a NMBC official. This time will include the Band’s entry and set up on the Performance Field and any musical warm-up.

Three (3) minutes, fifteen (15) seconds into the four-minute set-up/warm-up time, the announcer will introduce the band as follows:

“Joining us from [School City & State]... please welcome the [School] Marching Band!”
(Announcer pauses for audience response.)

“[School]’s **musical selections include the following:**” (Announcer reads their selections.)

“**The Nevada Marching Band Circuit is proud to present, Drum Major(s) [Drum Major(s) name(s)] and the [School] Marching ‘nickname.’**” *

*If the Band’s Drum Majors are going to salute, it should occur as the announcer is reading/announcing the sentence above. However, a Drum Major salute is not necessary to indicate that the Band is ready to start.

The performance of a pre-show during the four minute set-up/warm-up time or any other on-field activity will not alter the time of the announcement or the timing of the Performance. Following the completion of the pre-show announcement, the first note of music or the first step or visual move by a member of the Band (excluding any drum major salute) will start the timing of the Performance. The Performance must begin within 30 seconds from completion of the pre-show announcement or timing will thereafter begin automatically.

A Band is allowed a Performance time of 6 to 11 minutes anywhere on and within the Performance Field. Performance timing will end with the end of live music.

Upon conclusion of the performance, the announcer will give the Band’s field exit announcement as follows:

“**The [School Name] Marching Band!**”

(The announcer pauses for audience response.)

“**The [School Name] Marching Band is under the direction of [Band Director(s) Name(s)] with assistance from [Assistant Band Director(s) Name(s)].**”

Performance Regulations – Use of Electronics

All music from traditional wind and percussion instruments or electronic instruments must be performed by a Student Live and in Real Time. The use of sampled, prerecorded, or sequenced sounds of woodwind, brass, and/or percussion instruments is not permitted. No single, triggered, electronic sound may produce rhythmic intent. Lyrics with rhythmic intent may be triggered on a per word basis. Spoken word phrases without rhythmic intent may be performed with a single trigger.

PENALTY – At the discretion of the Contest Director and Chief Judge.

Electronic units for the production or amplification of Music, other sounds, lighting, and/or visual effects are permitted, provided that their use conforms to this and other applicable sections of this Handbook. If power is available at a site, it may be used at the Band’s own risk. NMBC will seek to provide access to front sideline power as close as possible to the 50-yard line, but takes no ultimate responsibility for supplying power or the failure of a power source it provides. Audio volumes may be controlled with a wireless device from any place in the Performance

Area or the Spectator Area open to the public for the event, including designated staff listening/viewing areas. Regardless of such designation, NMBC cannot guarantee the operability

of such devices, including the devices' communication with other devices within the Performance Area. Such devices are used entirely at the risk of the user.

An Adult may operate a mixing board or wireless mixing device, ONLY for the purpose of managing volumes, balances, etc. Allowing an adult to operate a soundboard does not grant permission for them to “contribute directly to the music or visual program.” The triggering of electronic music, sound effects, voiceovers, any/all lighting effects, and/or visual items (e.g. “remote control”), is only permissible by a student performer who is within field boundaries. It is viewed that those aspects are the same as a musical contribution to the show and therefore should only be produced by students within field boundaries. Adults may provide direction to student operators of such equipment, so long as they remain outside of the Performance Field. Lighting devices and their triggered events (visual contribution) should similarly be produced by students.

Performance Regulations – Equipment Use and Safety

Staging (props, backdrops, screens, or similar objects) built and/or used by bands at NMBC events shall be limited to a maximum total height of twelve (12) feet, including wheels, platforms, safety railings, other equipment, or other props placed upon the staging. Soft props used for staging, which use air to create an effect, (i.e. streamers, fabric, inflatables, or similar material) are permitted up to a height of twenty-five feet. Materials such as wood, metal, plastic, PVC pipe, aluminum or other rigid properties which might be used as a support or ribbing are not permitted above the twelve feet limit. No participant may be, or be placed on, any portion of any prop where the participant's feet are more than six (6) feet above the playing surface of the stadium, unless appropriate safety railing and/or other safety equipment are in place and in use.

Exception: Drum Major podiums may exceed twelve (12) feet and Drum Majors may stand more than six (6) feet above the playing surface if he/she is using a podium and the provided podium has appropriate safety railings.

The following are **NOT ALLOWED** in a Performance or on the Performance Field:

1. Any equipment, object, or material (including, but not limited to debris, powder, water, or other liquids) that may cause damage to the Performance Field or Performance Area, that presents a safety hazard, or that disrupts the scheduled flow of the contest
2. Pyrotechnics of any kind, including fire, fireworks, or the discharge of arms
3. Lights-out routines
4. Animals
5. Off-road mechanized vehicles (defined as golf carts, garden tractors, small ATVs, etc)
6. Drones or any remote-controlled helicopter, aircraft or similar items
7. Hazardous equipment or illegal use of equipment
8. Fog, smoke, or similar effect-generating equipment

To limit the chance of potential damage to a Performance Field or Performance Area, it is recommended that props and equipment utilize pneumatic or similar-style wheels of sufficient size and rating for weight.

PENALTY – For rule(s) violation and/or failure to comply with venue directions, at the discretion of the Contest Director and Chief Judge.

Any concerns regarding rule violations will be brought to that night's chief judge and will then be brought to the executive board's attention.
